I had my suspicions baby  
I didn't say nothing 'cause I be trippin' right  
I put all my trust in you  
The ears you used to kiss don't hear you anymore  
\*How could you be getting around me  
Getting around me  
Why'd you have to play me like that baby  
That's all I want to know, you tell me  
And why ere you getting around on me  
Sleeping around on me  
I would never do you like that baby  
And I'm the last to know  
Chorus  
Now everybody knows that you have a girl on the side  
Now everybody knows, yeah yeah yeah  
That you're not doing me right  
Why'd you have to be the kind that won't love faithfully  
I don't want no man with a girl on the side  
You know how much I love you baby  
You'll never find a girl that gives you more than me  
You threw away the best of times  
When you strayed away and left me lonely  
'Cause I was not your one and only  
Didn't I please you like you wanted  
How could you be untrue and throw it all away  
Repeat Chorus  
Bridge  
There ain't gon' be no coming around my door  
You can stay right where you are  
Bacause you'll never get my love anymore  
Repeat \*  
Repeat Chorus  
I don't want your love, I don't need your love  
I won't spend my time  
Alone, alone, alone, alone I won't be alone
