Don't stop and think put the wheels back in motion
All systems go not a speed bump in site
Spend too much time waiting for a resolution
And all along it was you who was right

I will always be waiting for you

Come on, Come on
Let's get on the road
So long, so long
To all that you know
Follow, follow
The amber lights home
Get a taste of life on your own

Don't hold your breathe waiting for another answer
Turn up the stereo as loud as it goes
We're staying static, I can't take it any longer
Where will end up? Nobody knows

Just take a look around
And don't think back on
All the words you didn't say
It's almost over now
So let's go all the way
Forget yesterday
We'll pack our bags and leave this place
Say goodbye to everything you used to hate

We'll go all the way
We'll go all the way

And I will, always, be waiting for you
And we'll spend our days driving
With nothing else to do!
