Treading water, tattered streets  
Things aren't better than they seem  
Knowing right from wrongs not best  
In a crowd of all the rest  
Cross the T's and dot the I's  
Do not stop when you hear their cries  
Cause the answers lie ahead  
And those answers wake the dead  
I'm dead  
I'm dead  
One more bullet in the chamber  
One more chance for us to make it out alive  
Now the sun is burning down  
And the bright minds they have all burned out by now  
The narrow minded contemplate a narrow-minded  
escape  
To throw it out the window  
The shadows pollute the light  
Please don't take my life  
I'm dead  
Don't worry they're only dead  
One more bullet in the chamber  
One more chance for us to make it out alive  
Now the sun is burning down  
And the bright minds they have all burned out by now  
The narrow minded contemplate a narrow-minded  
escape  
To throw it out the window  
I'm helpless as you cauterize (I can't wait for your body  
to turn)  
My friend you were bit by the lies and now it's too late  
They can take your body, but they can't take your mind  
Fight the war inside  
One more bullet in the chamber  
One more chance for me to make it out alive  
Now the sun is burning down  
And the bright minds they have all burned out by now
