Well, I love this life but it's doing me in  
Just in case I don't ever see you again  
I had a real good time  
I love the wine  
The women and song and the carryin' on  
I had a real good time

I been around the block a time or two  
'Round every corner there's somethin' new  
I had a real good time  
I just love the wine  
I love the women and song and the carryin' on  
I had a real good time

There's a big ol' world of opportunity  
For a man that sings the blues  
You learn a whole lot more about life  
From the things you're not supposed to do

I got a way with women keeps 'em coming around  
That's the kind of thing you don't turn down  
I had a real good time  
I love the wine  
The women and song and the carryin' on  
I had a real good time
