All the things we've done,  
People that we know,  
Places we've been.  
No matter what,  
We stick together.

And I've been hangin' round,  
With the kind of people,  
You warned me about,  
And I turned out just like them.  
They're my friends,  
And no matter what,  
Through thick or thin.

We stick together.  
(Whoah)  
The times we had.  
(Whoah)

We like to xxxx around,  
And sometimes I know we go too far,  
That's just who we are.  
You find out, who you're real friends are.  
They're the ones who stick around,  
When everything goes wrong.

And I've been hangin' round,  
With the kind of people,  
You warned me about,  
And I turned out just like them.

(Whoah)  
The times we had.  
(Whoah)  
Some of it went well,  
And some of it was hell.  
(Whoah)  
The times we had.  
Us against the world.  
And we stick together.  
(Yeah)  
Forever.

To all of my friends who are gone,  
I never will forget you.  
I feel lucky that I met you.  
We fought sometimes.  
And I hope I live up to,  
The dreams we had,  
When we were kids.

'Cause sometimes it was hell,  
And other times we felt like kings.  
And no matter what,  
When things went wrong,  
We stuck together.

And I've been hangin' round,  
With the kind of people, you warned me about,  
And I turned out just like them.

(Whoah)  
The times we had.

All of my friends.  
I'm glad I turned out to be just like them.
