(T. Kiely)

I came to Delia.I said,
"You're beautiful, its true,
And I think I feel you.
Girl there are things that we should do.
"She asked what was wrong with me.

But I'm not a quitter, and said,
"Sometimes what's wrong is what is right."
And I think that hit her...she no longer wanted to fight.
Delia stared and wondered.

I said, "Just take my hand,and let it happen.
I'm going to be your manIf you should have me.
I'll do anything I can,My Delia

I see, I see your curiosity has got you someplace else
that I have been
The beat, beat of your heart has got you questining
your health, but I'm your man
Can you feel me at your side? Oh no!

These papers are formalities just sign beside the X and
O's
I'm giving everything, I'll give you everything I own
I write you songs describing all the feelings that you
cause although

Those words aren't anything
They can't describe my pain,
And my love of everything in you.
I can't describe it!

You've been inside my head for such a long time
Delia why don't you just get up and go
You've been living in my head for such a long time
Delia why don't you just get up and go

I told you that I wasn't what you thought I was
