"If You're Gonna Love Me"

Visit "[If You're Gonna Love Me](#)" on MotoLyrics.com

If you're gonna love me, you better learn how to run
Cause I like when the boys all chase me just for fun
And if you're gonna love me, you better know how to
fight
And be willing to defend my honour on a Friday night
Cause I want you to want me
Oh yeah like you can't have me
If you really want me, all you got to give me is
everything
If you really need me, better need me more than
anything
Don't you try to deny what you know I feel inside
If you're gonna love me
If you're gonna love me then do it right
If you're gonna love me, you better dry your eyes
Cause I don't have much patience for the sensitive type
And if you're gonna love me, it better be for good
Forever stand beside me like a real man should
Cause I want you to want me
Oh yeah like you can't have me
If you really want me, all you got to give me is
everything
If you really need me, better need me more than
anything
Don't you try to deny what you know I feel inside
If you're gonna love me
If you're gonna love me then do it right
Do it right
Just a few simple things are all you have to do
And this could be the night that I just might fall for you
Oh, if you really want me all you got to give me is
everything
If you really need me better need me more than
anything
Don't you try (don't you try) to deny (to deny)
What you know I feel inside
If you're gonna love me
If you're gonna love me then do it right
Do it right
