"An Old Fashioned Christmas"

Visit "[An Old Fashioned Christmas](#)" on MotoLyrics.com

How I miss that old fashioned Christmas
Carols being sung by the tree
Window's candlelight shining bright for the whole world
to see
Children's eyes of sweet expectations

Wondering what each present will hold
Lying in their beds and impatient
On long Christmas Eve's of old

It used to be that all the family would gather for this
one night
It used to be that special feeling shared together
Knowing Christmas was here one night a year

How I miss that old fashioned Christmas
Memories that last through the years
Call me sentimental, don't mind if you do
I wish an old fashioned Christmas to you
