I really don't mean to stare
I was only trying to memorize you there
You know I meant no harm
It's just that the starlight in your eye
Gave me a chill, nearly made me cry
I'm sure it's very clear
(*) I don't know what's goin' down
You're gonna ruin this poor girl from out of town
I like the way you move so much that
(**) I guess I just lost my head
I know we should really know much better
I guess I just lost my head
I know we don't really know each other
So pardon the things I said
Won't you tell me you'll forgive me
I don't mean to intrude
It's just that I don't want to break this mood
(don't want to break this mood here tonight)
And if I hold your hand it's just 'cause
There's something in the things you say
That wraps me up and really puts me away

But everybody knows

Repeat (*)

Repeat (**)

Repeat (*)

I guess I just lost my head

I know we should really know much better

I guess I just lost my head

(I've got the feeling inside)

I know we don't really know each other

(and I love you)

So pardon the things I said

(I need your loving tonight)

Won't you tell me you'll forgive me

Guess I lost it

Guess I lost it

I guess I just lost my head

(cause you've been making me crazy)

I know we should really know much better

I guess I just lost my head

I know we don't really know each other

So pardon the things I said

Won't you tell me you'll forgive me
