I believe you

When you say that you will reach into the sky

And steal a star so you can put it on my finger

I believe you

Baby, I believe you

I believe you

When you say that every time that we make love

Will be the first time we've made love

And every act of love will please you

Baby, I believe you

(*) blind faith makes me follow you

I'd live in a cave if you wanted to

Just ask me and I'll marry you

You don't have to sell me

ÂiÂ®cause you overwhelm me

I've made up my mind for a life time

I believe you

When you swear your love will keep on growin' strong

And that forever isn't long enough to love me like you
need to

Baby, I believe you

Baby, I believe you

Honey, I love you

Repeat (*)

I believe you

When you say you'll fill my body with your soul

And love will grow into a freckled little girl

Who looks like we do

Baby, I believe you

Baby, I believe you
