Her ghost is there
I can see the outline of her shadow traced in the air
Sometimes I see her bended over your shoulder
I think what lies has she told you
And I see a smile light up your face
You like what she says
And I wanna cry, it's killin' me
But I play dumb instead

She's the uninvited guest who lives in our house
She's the other woman who's on your mind
Who's in your life?
I'd have to be blind not to see it, not to feel it
And I'm runnin' second best
To the uninvited guest and it's breakin' my heart

You don't know how I know
If it all was in the open, you'd deny that it's so
Just like the old song torn between two lovers
It's that happening to others
It's happening to you and me and the pain is intense
I should leave you but I love you though
It doesn't make sense

She's the uninvited guest who lives in our house
She's the other woman who's on your mind
Who's in your life?
I'd have to be blind not to feel it, not to see it
And I'm runnin' second best
To the uninvited guest and it's breakin' my heart

I should leave you but I love you though
It doesn't make sense

She's the uninvited guest who lives in our house
She's the other woman who's on your mind
Who's in your life?
I'd have to be blind not to see it, not to feel it
And I'm runnin' second best
To the uninvited guest and it's breakin' my heart
It's breaking my heart
