It's not a matter of finding out exactly how we feel.
It's a matter of disasters that have followed us both
here.
To the brink of discernment where we dare our selves
to jump.
Keeping steady hands on both our guns defending
what we've lost

[Chorus:]
Your not her.
I'm not him.
Lets hold it together
And keep it in just for tonight

Running out of distractions running out of things to say.
Diverting eyes to almost anything to keep my hands
away.
If I'm with you much longer there's no telling what we'll
do.
Face to face with this temptation. stay and face the fall
with you

A different case, another place,
And we would not waste this much time.
But time is what we must afford.
Just pull it back, keep it intact.
I'll keep what's mine, you keep what's yours,
Or we'll repeat what came before
