Guys like me, we don't know how it feels
Absentee even closing the deal
For every player there's a payoff in the final reel
But never with guys like me

'Cause, guys like me, we're real good at the gate
You'll agree with the odds on the slate
And put your money on a bona-fide heavy weight
And take it off guys like me
Take it off guys like me

They'll pull you close but never really
Looking warm but feeling chilly
You'll describe us as impassioned
When it's just a front we fashion

'Cause, guys like me, we all vow to become
Clear and free of the fife and the drum
And block the circulation till we're all completely numb
Let's hear it for guys like me
Let's hear it for guys like me
Let's hear it for guys
Guys like me
