Hey!
I really wanna be friends girl
I wanna wake up in your world
I really wanna be saved
And I hope it's not too late
I really want you to miss me
I feel the pain when you kiss me
I wonder why, I wonder why
We ever called it a day

(Chorus)
Oooo
Baby we're makin a movie
Oooo
Stuck in the middle and I don't know why
Oooo
There's got to be more to the story
Like the boy gets the girl after saving the world,
Lights, camera action it's good night

Hey!
Remember the nickname I gave ya?
I don't wanna waste it on strangers
I don't wanna give it away
Because it makes no sense at all

I gave you the keys to my front door
So what are you giving them back for?
I wonder why, I wonder why
We ever called it a day

(chorus)
