I feel like I've been here once before
You threw my bags through the
Door and in the Road
I came home to find them on the floor
And as the rain began to pour
I got cold

And I tried to compromise
But you keep telling me all these lies
Now I don't get to say my
Last goodbyes

Goodbye to you've been wastin
All my time
You're no longer mine now
You've left me
I can't seem to get you off my mind
That's when I realised you had me hypnotized

Why am I now living on my own
She keeps inviting people home all the time
Why am I still paying for her phone
When all the luxuries she owns should be mine

Now I start to wonder why
You shrug me off when I say hi
You treat me so bad
Despite how hard I try

[Chorus]

Girl you can't hold me back no more
You're not even worth me writing lyrics for
We had something good together
Do you think you were being clever
To throw me out in awful weather
How do I forget you now

I can't get you off my mind
That's when I realised you had me hypnotised

[Chorus]
