"Saturday Nite"

Visit "[Saturday Nite](#)" on MotoLyrics.com

When my parents outta town
I got all my buddies round
So we're gonna have a party tonight
And if your daddy's got the truck
Then I'll come and pick you up
And anyone who wants to come for a ride
And if you wanna help me drink
There's some bottles by the sink
There'll be 20 thousand people inside
You know that everybody likes to party on a Saturday
night
And we got every girl from school
In the deep end at the pool
If you wanna take a dip bring your trunks
When we start to dim the lights
Gotta find a girl you like
And you better hope she's already drunk
And if somebody feelin sick
Get 'em in the garden quick
Cos we don't want 'em to spoil the fun
You know that everybody wants to party on a Saturday
night
We're waking everyone asleep
When we start to party
In the street
We want the neighbors to complain
Cos the musics driving them insannnnnnne

And if it's going to to your head,
Get behind the garden shed,
That's where everybody goes to get laid
Or if you want another beer
Then there's plenty in the rear
No one here to check if you're underage
And if you think you're having fun
Then the party's just begun
Early morning leavers wish that they'd stayed
You know that everybody likes to party on a Saturday
night

We're waking everyone asleep

When we start to party
In the street
We want the neighbors to complain
Cos our musics driving them insannnnnnne

When my parents come back home
I say we been alone
But we don't know how the mess got this bad
I'll be grounded for a while
All I have to do is smile
And get a little talk from my dad Next time they're
away
All my buddies can stay
We'll do our best to drive the neighborhood mad

You know that everybody likes to party on a Saturday
Everybody wants to party on a Saturday
Everybody loves to party on a Saturday
Night
