I, look into the sky
And I have to ask why
She'd go and leave me
Oh why do feelings have to die
Is it all just a sign
Of what it's meant to be

Well I'm just too excited
Your gonna lose you can't restart it
She's over due for a break out
I better go before she blows my brains out
Silence is a scary sound

Funny feeling happened today
So we'll bury it in the past
Didn't mean much, that much anyway
I know that love wont ever last

I'm, torn up in inside
There's a hole in my mind
When you're not next to me
So I, hope you choke and die
On every single lie
And this is what you've done to me

Well I'm just too excited
Your gonna lose you can't restart it
She's over due for a break out
I better go before she blows my brains out
Silence is a scary sound

Funny feeling happened today
So we'll bury it in the past
Didn't mean much, that much anyway
I know that love wont ever last

Well I'm just too excited
Your gonna lose you can't restart it
She's overdue for the break out
I better go before she blows my brains out
Silence is a scary sound

Funny feeling happened today
So we'll bury it in the past
Didn't mean much, that much anyway
I know the love wont ever last

Funny feeling happened today
So we'll bury it in the past
Didn't mean much, that much anyway
I know the love wont ever last
