If you go walking you best follow me
Cause I'll show you something that you won't believe
I'll make you love me the next time we meet on the
sunny side of the street
Tchu tchu tchu ru, tchu tchu tchu ru [on the sunny side
of the street] [2x]

So many colours like... number has kept me alive
So when you're down come to me on the sunny side of
the street
Tchu tchu tchu ru, tchu tchu tchu ru [on the sunny side
of the street] [2x]

Take a step out of the shade and give your heart away
Believe it's somewhere It's easy to find
Just close your eyes, go hear it beat Oh, on the sunny
side of the street

Oh, Next time you're walking, you best follow me
Cause I'll show you something that you won't believe
I'll make you love me the next time we meet on the
sunny side of the street
Tchu tchu tchu ru, tchu tchu tchu ru [on the sunny side
of the street] [2x]

On the sunny side, on the sunny side

Take a step out of the shade and give your heart away
Believe it's somewhere It's easy to find
Just close your eyes, go hear it beat Oh, on the sunny
side of the street
