Sleep won't sleep and eyes won't fall
Desire's gonna carry me down to the shore.
All night on the other side, I'll be with you on the other
side.

Cause there they dance, the souls can sing
And purple flowers go where they've been
All night on the other side, I'll be with you on the other
side.

Endlessly, come and dance with me
In the dark I see a vision of you.

I'm going down where they play all night,
Where the ghosts show they're living and the
shadows are so bright
All night on the other side, I'll be with you on the other
side.

Endlessly, come dance with me
In the dark I see a moment of you, only you.

Endlessly, come and dance with me
In the dark I see moment of you, only you.

Wasting pressure on a mellow tone
Music playing on and on and on.
All night on the other side, I'll be with you on the other
side.

Sleep won't sleep and eyes won't fall,
Desire's gonna carry me down to the shore.
All night on the other side, I'll be with you on the other
side.
All night on the other side, I'll be with you on the other
side.
All night on the other side, I'll be with you on the other
side
