andy my dear, I can read in your eyes that you love me

Mandy my dear, I know your silly fears

I'm just the man, to handle your love with care

For Mandy dear, you're not the next love affair

I can read in your eyes, they tell me no lies

Darling, let's loose no time

Whatever will do, believe me it's true, our love is not a
crime

Mandy my dear, take my hand and let's climb all the
mountains

You're my whole world, let me be your world too

Mandy my dear, my love for you is true

So Mandy mine, there's nothing else you can do

I can read in your eyes, they tell me no lies

Darling, let's loose no time

Whatever will do, believe me it's true, our love is not a
crime

Mandy my dear, take my hand and let's climb all the
mountains

You're my whole world, let me be your world too

Mandy my dear, my love for you is true

So Mandy mine, there's nothing else you can do
