So eager to supply again  
keep giving now what you've got in  
your so sad and lonely  
it's such a scene  
I wanna tell you what I can't say  
is it always gonna be this way?  
everything is one way up and thats all there is

I don't wanna say hey again  
chasing round the bed and then  
don't wanna lose what I can win  
there's something in my head

you said I should let words go  
but something inside won't let me show  
the shapes that I see in everybody's stares  
can feel that I'm not right  
am I holding on too tight?  
feelings that I'm feeling when everybody stares

I don't wanna say hey again  
chasing round the bed and then  
I don't wanna lose what I can win  
there's something in my head  
[x2]

So eager to supply again  
keep giving now what you've got in  
your so sad and lonely  
it's such a scene  
I wanna tell you what I can't say  
is it always gonna be this way?  
everything is one way up and thats all there is
