"When I Sleep"

Visit "[When I Sleep](#)" on MotoLyrics.com

I found a way
to make it alright
instead of asking
I say whats on my mind
and I take without warning
so I get what i want
it wouldn't come to this
thats what i thought

even when I sleep
I look alright
I don't really care if you're up all night
there's a commotion in your heart
so listen when I say don't stop

now and then
after you've gone
I get a feeling
it's like I don't belong
and I think about something
it was something that you said
is it all wrong?

even when i sleep
i look alright
i don't really care if you're up all night
there's a commotion in your heart
so listen when i say don't stop
x2

and i think about something
it was something that you said
is it all wrong?

even when i sleep
i look alright
i don't really care if you're up all night
there's a commotion in your heart
so listen when i say don't stop
x3
