I found my way back home today
Fifteen years each way
I think I feel safe

And when they find I have something to say
I hope they see straight through me
To what I really mean

And yes I feel it in my heart
And nothing else could make me feel this way
Oh, here I am
Here I am
I am home

I think I lost my way somehow
And now I know
The way to go

I thought about it so many times
But here I am
And I feel fine

And yes I feel it in my heart
And nothing else could make me feel this way
Oh, here I am
Oh, here I am
I am home at last
Here I am
Oh, here I am

This barricade, oh barricades
Has fallen down
It's fallen down
And nothing could compare
To the way that I feel
The way that I feel
When I am here
