

## The Civil Wars

### "Rain"

Visit "[Rain](#)" on MotoLyrics.com

Well we've all been through it, thinking times are tough  
And I'll see you through it, when you've had enough  
And I'll be beside you, many feelings the same  
Give back the ruin, give back the rain

Well we've both felt lovely, things are going our way  
May you rise above me, may you have your day  
And I'll be proud of you, when I call out your name  
Give back the ruin, give back the rain

And you know it's the only bridge I know that's still  
above water  
I'm praying my insurance is gonna pay  
And you know it's the only road I know that's still above  
water  
I'm praying my family is gonna stay

Well we've both been better, or worse I suppose  
And I got your letter, and I washed your clothes  
And I'll be right with you, every step of the way  
Give back the ruin, give back the rain  
And I'll be proud of you, when I call out your name  
Give back the ruin, give back the rain
