All I wanted was to find my way  
All I wanted was to save the day  
All I wanted was to be your friend  
That's all I wanted in the end  
From the corner of my eye I saw you flaming across the  
sky  
There was nothing I could do than to burn up next to  
you

There's a fire burning in me  
It's a storm bound to win me over  
People run, December morning  
They run to sound the warning  
Over

When we lay down in the grass  
All my feelings turn to ash  
All the pieces of my soul  
Heart to harden into coal  
In the middle of the stormy weather  
When our bones start to fuse together  
All the protons and unnamed neutrons  
Explode in me

There's a fire burning in me  
It's a storm bound to win me over  
People run, December morning  
They run to sound the warning  
Over, it's over

Sound the warning  
Sound the warning  
Sound the warning  
Sound the warning
