If i stop and say that's it what would you do  
If i lie down and quit and put an end to you  
If i fall through that hole would you pick me up  
If i lose my control and break your loving cup

If i fall through  
If i fall through

If i love you too hard would you slow me down  
If i crawl through your yard my face on the ground  
If i fall through that hole mighty river below  
If i lose my control would you not let go

If i fall through  
If i fall through

[solo]

If i fall through  
If i fall through  
If i fall through  
If i fall through
