You're falling fast,
I'll make this last,
I'm everything you ever wanted,
I'm everything you wanted just but more.
You'll take the pain,
I've got no shame.
I'm everything you always hoped for,
Everything you hoped for just but,
Everything you hoped for just but more.

You're chase is worth the kill,
But you're face ain't worth my time.
My face is worth your thrill,
But your kill ain't worth my shine.

You take the bait,
I'll make you wait.
I'm everything you always wanted,
Everything you wanted just.
You wanna stay,
You love my sway.
Everything you hoped for just but,
Everything you hoped for just but more.
