I messed up, I never meant it so much,  
It's been so long since I did you wrong.

This is my best way to say sorry.  
"so I am sorry"

I can't take my mind off what I've done.

I can never answer you, when you call,  
Because you're way too understanding.

Do forgive me, you always forgive me  
I've done wrong you did right (right, right)

I can never answer you, when you came round,  
Because when I fall down, you're still standing.

I celebrate and you celebrate, and we celebrate,  
Cause we're meant to be best mates.  
We haven't talked in so long.  
Because I did you, Because I did you wrong

Well all I can say is I messed up, and displayed no  
trust.  
I've been acting stupidly and won.

Well you've got the words strapped onto your face,  
But that's okay, because you have the reasons in this  
case,  
But don't give me that face, and then I'll be  
sentimental.

Cause I've been a  
And you say (gosh stephan why you treat me like a)

I could never be there for you lately.(I could never be  
there lately)  
So you have the right to use some bad language.

I can never answer you, when you call,(I could never be  
there lately)  
Because you're way to understanding.

I celebrate and you celebrate, and we celebrate,  
Cause we're meant to be best mates.  
We haven't talked in so long.  
Because I did you, Because I did you

I celebrate and you celebrate, and we celebrate,  
Cause we're meant to be best mates.  
We haven't talked in so long.  
Because I did you, Because I did you wrong!

So I don't I don't I really know why I had to lie had to lie,  
Cause even when I, I make a promise I usually keep my  
endings tied.

I can never answer you,(Now how could I ever answer  
you, cause talking to me is all you do)  
Because your way to understanding.

I celebrate and you celebrate, and we celebrate,  
Cause we're meant to be best mates.  
We haven't talked in so long.  
Because I did you, Because I did you

I celebrate and you celebrate, and we celebrate,  
Cause we've always been best mates.  
We haven't talked in so long.  
We haven't spoken for so long)  
We haven't talked in so long.  
Because I did you wrong!
