Hot Young Face  
oh yeah she's my lvoer  
style and grace you'l never  
Devine  
time and space will never  
recover  
I cant leave this place without  
you in mind  
and so I say

CHORUS  
Start leading, start leding, start  
leading me on now, today  
Start leading, start leading, start  
leading me on now

So you say that I'm a contender  
You know that I can't leave this place  
While you're occupied  
Oh don't be shy

CHORUS  
Start leading, start leading, start  
leading me on now, today  
Start leading, start leading, start  
leading me on now

Fate, you can't be the  
same way  
and don't you make all  
same mistakes I made  
I know we feel the same way  
We're looking forward to one  
more bright and sunny day

CHORUS
