We all need a secret garden
Yes I know
We all need a hideaway
Where we go
When we need a shelter
To a place where we live in peace

We all make a secret journey
Yes I know
We all travel in our dreams
Close your eyes
Listen to your heart
We can fly to our hideaway

Love will carry us there
Love will lead us all the way
Love will carry us there
Love will lead us all the way
To hideaway
Where we can be all alone
The hideaway place
Where we can give our love
A place to grow

We all have a hideaway place
Where all life was only a game
It can be home, street or school
I said truth, I'm not a fool
I want be back
I want be there
To a secret garden
To a secret place
To a hideaway
