I wish an another day, to be with you again
I wanna call your name, I pray everyday
I wish an another day, so please can't you stay
To love me everyday, because I want you

I wish an another day

I wish an another day, I wanna be with you all the time
I wanna hold your hand, I wanna feel yor touch
When you're faraway, I write your name on the line
I want you back, 'cause I love you, love you so much

Wish one more day to be with you darlin'
One more hour to make me smile
One more night to be with you honey
'cos you are so nice, you are so funny
Don't make me sad, don't go away
I'm thinking about you everyday
Yes I wanna be with you so I, I wish an another day

I wish an another day with you, my darlin'
I wish an another day with you, my loverboy
I wish an another day with you, my darlin'
I wish an another day with you, my loverboy

I wish an another day, to give our love one real picture
You make my life beautiful, so don't go away
Yes, I wanna be with you, I love ya, I need ya
I want you here, I said, I wish an another day
