Save the jungle  
Jungle, we have to save,  
I said jungle, i have to save,  
Said jungle, you have to save,  
I said jungle, we have to save  
Ref.:  
We save the jungle for us  
We save the jungle for us  
We save the jungle for us  
We save the jungle for us  
We save the jungle, have more trees  
We save the animals, they wanna live free  
We save the jungle,  
I'll let you hear the drum  
We need breath, we need oxygen  
We save the jungle, come on, let's do it  
We save the flowers, so move it, so move it  
Don't let it be, better now than later  
Save the jungle, save the nature  
We save the jungle, we can't wait  
We must help, tomorrow is too late  
We save the jungle, now and today  
But not there, we are so far away  
We are gonna help here on the place  
We are gonna scream so many days  
We are gonna sing all night long  
Everybody listen to the jungle song
