Night comes in, better take your medicine
Await the stars in your eyes
Life can't wait, will crash on the ocean
The time is now to come with me

Then we'll grind one out
Baby we'll try in the night time
Baby we'll try tonight
Take my time in the evening
I feel so fine and stoned
Tip top in the bathroom
A kiss to my head it goes

You said that love could shake the sky
Now your sick of love my junkyard butterfly
Here today, gone tomorrow
The time is now is to come with me

Then we'll grind one out
Baby we'll try in the night time
Baby we'll try tonight
I feel so fine and stoned
Tip top in the bathroom
A kiss to my head it goes
