Scream Team it's our time to yell
This is our time, Armageddon's here!

As the fire grows, police have lost control
Say your last words, we are all gonna die
Police have shed a tear
We show our strength with fear
We are the demons they warned you about

There's horror in Miami
Scream Team raise your voice and yell
The dead are killing the dead are rising
They're under our spell

Zombies march forth this day
The wolves' howl out, Armageddon's here!

As the fire burns, they can't control our soul
Lock your doors it could be a long night
This war is waged below
6 feet beyond control
We are the demons they warned you about
