Haunted mansions, eerie ghosts
Statice brides and jolts of bolts
Evil phantasms we will find you
And brings you to your doom

Open caskets, dead of night
Bitten deep, hypnotic sights
Oh vampire we will find you
And stake you to your doom

We are the Monster Squad
Just call the Monster Squad
We stand above the rest
The ones you can't control
We are the monsters of today

Moons of graveyards
Hands of might
Undead monsters claim the night
Oh you monsters we will find you
And bring you to your doom

Splattered guts and battered brains
Lurking zombies, who's to blame
Oh dear, Bobby we will find you
And beat you to your doom!
