Haunted mansions, eerie ghosts  
Statice brides and jolts of bolts  
Evil phantasms we will find you  
And brings you to your doom

Open caskets, dead of night  
Bitten deep, hypnotic sights  
Oh vampire we will find you  
And stake you to your doom

We are the Monster Squad  
Just call the Monster Squad  
We stand above the rest  
The ones you can't control  
We are the monsters of today

Moons of graveyards  
Hands of might  
Undead monsters claim the night  
Oh you monsters we will find you  
And bring you to your doom

Splattered guts and battered brains  
Lurking zombies, who's to blame  
Oh dear, Bobby we will find you  
And beat you to your doom!
