"We Are Venom"

I came alive in this tower
Spiderman feels my power
Spray of this black shower
Things about to get sour

I'm New York's anti-hero
And that title sounds just fine
I'll grip you tight within my Venom Web
Can you survive Venom's bite?

We are Venom
Spiderman must die
We are Venom
It starts tonight
We are Venom
Parker's demise
We are Venom
It ends tonight

Confess my sins in this tower
God please kill Parker
I am alive in this tower
We are Venom feel our power

Violent eyes
Violent teeth
Violent hatred towards you
Blackened lies
Blackened skylines
This is it
Spiderman die!
