Drag your carcass out of bed and into the revolution,  
Or sleep through it all instead and take the credit.  
Ain't that the fashion of the rich human pollution?  
And all of you accredited anarchists feel free  
To bring your wet nurses and prized possessions to  
war.

You wanna buy into the good fight?  
There's no better time  
I am your clenched fist, personified.  
But if you wanna stay home and jerk off  
To pictures on facebook that's fine  
Or if you've got a gun,  
And a couple of bucks we can youthanize.

... we can youthanize.

Change! ? Change! ? Can you spare any change?  
Can you spare any?  
I didn't think you could.
