Been training dogs again
To bite your little princess
And making sure they make a scene
Running errands all the way
Communicate in codes
You've just gotta make the in-roads

Holding on - to what you've got
Making plans - just to stay alive
Doing time - oh you bet you will
I'm doing mine - by the side of the road
Making out - cos i'm making good
What it's all about - like i said i would
Then you realise - well, look who's laughing now

We take pride in our work
The key's the execution
And, hey that's what we had in mind
But we're not just having fun
I wouldn't wanna be ya
Cos we're drawing blood if we see ya

And we're not afraid to use animals
Or anything else that'll tear itself a hole
Yeah we'll be just like dumb fucking animals
If that's the kind of game you wanna play
