From the start love was swaying bouncing orchestra  
Playing loud  
Oh so enlightening but it also felt frightening when  
A lasso in high speed make a perfect knot around my  
Knees  
I'm falling into worm embrace while secretly in chains

'Cause I wanna call it forever call  
This thing forever forever  
I wanna call it forever call  
This thing forever forever

These promises deform my spiritual stability  
Dedication so newborn burning flavours inside of me  
Oh from a vision I recall your presence in a zoom  
Now loving words are faint 'cause I'm too tight in your

Embrace, oh oh

Want to call it forever call  
This thing forever forever  
I wanna call it forever call  
This thing forever forever

Big tears splash my eyes I keep my female  
personalities  
Romance blooming smells so nice out plays any  
harmonies  
Oh I'm floating up stream and my knees are shaking  
So as we sway orchestra play oh I hope we make it

Wanna call it forever  
This thing forever forever  
Oh I wanna call it forever call  
This thing forever forever
