We came we played we drifted away  
We came we played but it got away oh no  
What's happening to us?  
We came we played we drifted away  
We came we played but it got away oh no  
What's happening to us?

Well I'll just shut my eyes 'til we get back home  
'Til we touch back down and keep playing dumb  
And I'm carving my own little masterpiece  
Go ahead cut deep but don't tell the boys

I tried but now I can't feel a thing  
Just gagged and bound and clipped at the wings oh no  
What's happening to us?  
I tried but now I can't feel a thing  
Just gagged and bound and clipped at the wings oh no  
What's happening to us?

Well I'll just shut my eyes 'til we get back home  
'Til we touch back down and keep playing dumb  
And I'm carving my own little masterpiece  
Go ahead cut deep but don't tell the boys

And I'll just shut my eyes 'til we get back home  
'Til we touch back down and keep playing dumb  
And I'm carving my own little masterpiece  
Go ahead cut deep but don't tell the boys
