We lose our way  
So easily  
Call it distraction  
But it's not for me

They call it vicious  
But we did stand tall  
It's not your fault  
My timing's flawed

We have our friends  
Few and far between  
We keep them close  
And treat them mean

We laugh at you

So thank you all  
We'll go on winning?  
Please have a ball

The final blow  
Some time to rest  
Beside the ones  
We like the best  
And who's to know  
What's round the bend?  
It can't be far  
It never ends...  
It never ends
