You've got a razor in your top drawer
But it's not for shaving
Most would run screaming but I'll be right here
Patiently waiting for a time when I can run in
And save you from yourself
You've got a razor in your top drawer
You've got a razor in your top drawer
You wear tube socks on your arms
To keep the scars locked away
Just let them heal they will disappear
And so will the shame
You've got a razor in your top drawer not for shaving
You've got a razor in your top drawer not for shaving
