We are poor homeless nobodies
Fallen idols wannabees
Streetfighting alcohol and narcotics
Too old to be your next one-shot rockstar kid
Yet too bored to care about all that shit
Still, the gun is loaded, don't be self-assured

There's one bullet left for each of us
Black tux, everybody hates us
Middle finger on the trigger
Get in the klub, motherfucker

Did you get arrested in Geneva?
Spread chaos in Venezia?
Have you been drinking with the Polish Mafia?
Or talking shit to Vegas' police?

Get in the klub, we're fucking invisible!
Get in the klub, we're fucking invincible!

We are poor homeless nobodies
Fallen idols wannabees
Streetfighting alcohol and narcotics

Too old to care, too bored to care
