

The Crash "Catfight"

Visit "[Catfight](#)" on MotoLyrics.com

You're sad sight, lost and lonely
Had a cat fight, up an alley
But you've got moonlight in your pocket
For the big black night
So don't worry. There are miracles
Don't hurry, you've got time to end this tragedy
So don't worry 'cause there's love around

Wish I knew you like your lovers,
Like your friends do, all your brothers
And if only I could reach you
But we're all adults here
So don't worry. There are miracles
Don't hurry, you've got time to end this tragedy
So don't worry 'cause there's love around

On a great night you'll be winning
On a great night you'll be singing
And you will sing in tune
