

The Crash "Fireworks"

Visit "[Fireworks](#)" on MotoLyrics.com

Open your eyes, look up tonight
In the scariest dark hides a marvellous spark

And I know that fire works
I've seen the fireworks
Down here, a higher world
I've seen you

Sparkles flew as brightness blew
First a heavenly glow, then the colours explode

And I know that fire works
I've seen the fireworks
Down here, a higher world
I've seen you
I've seen you

And I know that fire works
I've seen the fireworks
Down here, a higher world
I've seen you
I've seen you
