I love these feet, they get me home  
When I'm all alone  
Right through these streets  
As lonely as I am when I get home  
So stay with me  
Let's feed the night and kill the morning  
The city breaths, the sun will rise and stop the falling,  
yeah

chorus:

I'm dancing though I never dance  
You're laughing though you never laugh  
And I hope we're more than friends  
And I hope this will never end and this shall never and  
This shall never end

2.verse

Angels fall, they break the windows on the rooftops  
Strangers call, they go to places where rock n'roll rocks  
Embraces. Around the corner love is being born  
White faces that cry alone when their love is being torn

chorus:

I'm dancing though I never dance  
I'm laughing though you never laugh  
And I hope we're more than friends  
And I hope this shall never end  
And this shall never end  
And this shall never end

bridge:

Love, you've gotta love, just feel it, you've got a lot  
Ooh-aah, you've gotta love, just feel it, you've got a lot

chorus:

I'm dancing though I never dance  
I'm laughing though you never laugh  
And I hope we're more than friends  
And I hope this will never end  
And this shall never end  
And this shall never end
