1.verse

It's cold in here, it's dark in here
But we'll go all the way
We're breathing this freezing air
Then we blow these heart shaped clouds
We will beat them
Just be around me now and don't be cool

chorus:

Oh no, I won't let bugbears break our hearts
Don't be scared now, you'll be safe
I won't let goblins take you away

2.verse

The darkness and hardness, they can do no harm
So slowly, in silence, we will beat this
Freezing world, steely scenery
'Cause I've got you now and you've got me

chorus:

Oh, no, I won't let bugbears break our hearts
Don't be scared now, you'll be safe
I won't let goblins take you away

bridge

chorus:

Oh no, I won't let bugbears break our hearts
Don't be scared now, you'll be safe
I won't let goblins take you away
