Ninety days will protect our ways  
Fire puts out fire  
We'll build walls then we'll build them higher  
This will keep them out

The street's on fire  
The street's on fire  
They'll push you down again, oh  
Something I keep forgetting  
Something I keep forgetting  
Something I keep forgetting  
Something I, I, I, I

Riot shields and plastic bullets  
An eye for an eye  
We'll keep pushing, we'll keep pushing  
All our very modern ways

The street's on fire  
The street's on fire  
They'll push you down again, oh  
They'll push you down again, oh  
Something I keep forgetting  
Something I keep forgetting  
Something I, I, I, I

Something I keep forgetting  
Something I keep forgetting  
Something I keep forgetting  
Something I, I, I, I
