### "Came Down"

Visit "[Came Down](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Chorus]

It was dope how you came down  
There was hope when you came down  
Now I know why you came down  
Glad I know why you came down

We met our Savior when you came down  
We saw your flavor when you came down  
You gave us favor when you came down  
Now we goin' praise ya cause you came down

[Ambassador]

The more I live the more I'm convinced of  
The fact there's hope in this life in spite of what sin  
does  
Hard knock life and can't weed out the sorrow  
Still I believe the sun'll be out tomorrow  
I've got a right to think like this  
And my reason is connected to the season of  
Christmas  
Cause though it doesn't seem right one night this  
Place of low worth held the birth of One priceless  
Straight up- wait a minute the kid's sovereign  
Born in a stable he deserved the Ritz Carlton  
That's just the tip of the ice  
And Christmas is the perfect time for the rhyme to hip  
you to Christ

[Ambassador]

Please- y'all let me reflect on the blessin'  
Of what God did when He slid the flesh on  
Stepped on earth though His worth was slept on  
His word made the earth and by His word it's kept goin'  
That's why the season's a good 'nuff reason to please  
Him  
How I wish every hood would seek Him and see Him  
Grown, enthroned, more than just a rabbi  
I wish you could see Him as Lord just ask the magi  
Who brought incense, gold, and myrrh  
They saw a King- whatcha' think that the gold was for?  
Servin' others- madd blood and sweat

Served and loved us- that's the kind of gold you get  
when it's Christ- style lovin', change up your lifestyle  
lovin'

Correct you when your lifestyle's buggin'  
Christmas lovin', the tear up your wish-list lovin'  
And switch it to the give gifts lovin'

[Chorus]

[Ambassador]

Christmas is the time that I can get my eat on  
But now there's divine grub I get to feed on  
It's soul food every time I get my read on  
Now I no longer have to get my weed on  
He's strong but he's on nothin' he's reborn  
He keeps goin' even with the gifts and trees gone  
And he's hype of the fact that Christ is  
The God who came when others wouldn't come down  
like gas prices  
Some swear it's a myth but they should cherish the gift  
Cause when Jesus was born there was a shift  
From hopelessness to hope that's just so dope  
I hope you get to make the most of it

[Chorus]
